

*EWC Lift Systems, LTD.*  
*'Lifting Life and Spirit'*

*The EWC SafeStep Therapy Trainer* is a safe and secure solution to stabilize a person in an upright position to exercise and perform gait-training.

**Installed in home**

- ...Each *SafeStep* unit is custom designed and built to meet user's needs. Height is adjusted by an electric lifting motor. Users weight can be partially or fully supported by unit.
- ...Movement by user is supported in a straight line while limiting lateral instability.
- ...Requires NO special structural support for installation and use.
- ...Unit is NOT attached to existing walls or ceiling.
- ...Carpet and furniture do not restrict movement in an area.
- ...NO special wiring required—110 compatible.
- ...finish is lead free and can be white or tan (other colors available for a Nominal fee.)
- ...T-bar is custom sized per user!

\*patent pending\*
